

Transport records deposited in 2001

The following classified list of major archive collections acquired by British repositories during 2001 has been compiled by the Historical Manuscripts Commission. Some collections may not yet be available for research, and enquiries should be directed to the relevant repositories. The journal gratefully acknowledges the invaluable help of the Royal Commission on Historical Manuscripts in drawing up the list. The commission seeks each year to collect information relating to manuscript accessions from over 200 repositories and record offices throughout the British Isles. The information is published on the Internet via the commission's web site (<http://www.hmc.gov.uk>) and in a series of thematic digests which appear in learned journals and newsheets. It is also added to the indexes to the National Register of Archives (NRA), which has over 43,000 unpublished lists of archives available for public consultation in the commission's search room at Quality House, Quality Court, Chancery Lane, London WC2A 1HP. The indexes to the NRA, but not the lists themselves, are also available via the Internet. Readers wishing to consult the NRA remotely may gain access via the commission's Web site at the address above or via e-mail (nra@hmc.gov.uk). The commission will answer limited and specific postal and e-mail enquiries, fax 020 7831 3550. Readers should be aware that the manuscript collections noted in the following digest represent a very small part of the collected information available in the NRA.

Aviation

National Library of Ireland, Kildare Street, Dublin 2

Philip Gerard Conran: papers relating to the history of aviation, c. 1940–2000.

Science Museum Library, Imperial College Road, South Kensington, London SW7 5NH
